3. DOB is not matching, but name, photo, relation type and relation name match – case for seeding (verify for DOB – is a case for Form 8)
4. Both photo match, name is same, relation type and relation name are different – case for seeding

### 3.7 Instructions on Seeding

- Instructions have been issued to BLOs to check the quality of photographic images and get the required Form 8 from electors during door to door verification/collection of details from electors. However, it needs to be rechecked during the pre-seeding process. If any defective or unclear images are noticed, instructions may be issued to BLOs to collect the updated photos, along with Form 8 from those electors.
- If the ERO requires any confirmation of any entry, the same may be flagged during seeding and he/she can get it confirmed/changed by collecting Form 8 from the Elector, through the BLO
- Every case where enquiry has been scheduled by the ERO/AERO shall be checked with the BLO to verify the correctness of the details in the Electoral Roll vis-a-vis the NPR – Aadhaar database. The Elector should be called for enquiry by the ERO/AERO only on instances where it is not possible to decide, on the basis of BLO verification details which was collected during the NERPAP door to door verification.
- In cases where there is any change in the Electoral Roll details for which claim form has been obtained and on which verification is required, the BLO should only verify and provide the clarification.
- Enquiry should be scheduled by the ERO/AERO only and the BLO should verify and provide the details and the supervisor should not call for any enquiry.

### 3.8 Important Links

The link for viewing a demo about the seeding process is

<http://117.239.178.194/trialseeding/>

A video link covering the entire process has been provided at

[http://elections.tn.gov.in/NERPAP/Nerpap\\_videos.html](http://elections.tn.gov.in/NERPAP/Nerpap_videos.html)

which may be utilised by the EROs/AEROs and Supervisors

The Supervisor who pre-seeds the data should compare the details available in the windows and to click the appropriate button "ACCEPT" or "REJECT" or "SCHEDULE".

Once the "Accept" button is clicked the details of Pre-seeding will be stored in the DB and appropriate message will be thrown. After clicking the OK button, it will again go the previous page.

- Then to go for the pre-seeding of next entry
- Necessary provision for MIS to know the statistics of Part wise/AC wise/District wise Pre-seeded & Seeded are being shared with the Districts

On the same analogy of pre-seeding done by the supervisors the final seeding shall be done by the ERO/AERO using the seeding module – Seeding (By ERO's /AERO's) available in same web link <http://117.239.178.194/ERMS/NERPAP/> by using the user login id and password given.

### 3. SEEDING

Seeding is the process wherein photo and demographic details of the elector as appearing in the ER and as appearing in NPR-Aadhaar database are compared and if found to be belonging to the same person, then Aadhaar number is seeded to EPIC no of Elector for future linkage between the two databases.

On the basis of successful completion of pilot at 57. Palacode, 58. Pennagaram in Dharmapuri district and 123. Pollachi A/C in Coimbatore district, the seeding protocol has been finalized and is as follows.

- Supervisor does the part wise pre-seeding (100%) on web based software assisted by BLO having Aadhaar card copies (if voluntarily given by the elector). Supervisor will have to click on any one option- 'Accept', 'Reject', or 'Schedule' enquiry.
- Each AERO verifies 4% of the total pre-seeded Elector records randomly system generated having minimum one record per part. Options- 'Accept', 'Reject', or 'Schedule' enquiry. Generally two AEROs in an AC, therefore 8% verification at this stage.
- ERO will verify 2% of the supervisor pre-seeded records randomly generated by system for him, covering all parts.
- Thereby total of 10 % verification of pre-seeded data before any part is seeded. Every 'Accept' goes to next level of scrutiny- Supervisor->AERO->ERO
- Every 'Reject' entry goes back for verification to BLO and that part for repeat pre-seeding (100%) by the Supervisor & BLO.
- Every 'Schedule' comes up for enquiry with the Elector on the special hearing days in presence of the BLO for confirmation or rejection by AERO/ERO, along with the claims and objections, if any.

## 2. Pre verification of NERPAP data with NPR-Aadhaar database

The data collected organically during NERPAP is pre verified inorganically with the NPR-Aadhaar data base available with the office of CEO. The Aadhar Numbers entered in NERPAP format are checked by the back-end system for junk entry, outside TN Aadhar No. and all such entries are sent back to district for correction or a confirmation respectively. Out-side TN Aadhaar do not find place in our back-end data base, therefore this confirmation back from district will enable this no. also to be available for seeding at subsequent stage. The Aadhaar numbers that are found in database undergo comparison of demographic attributes. This process will save not only time but greatly assist the seeding officer to make most rational choice and avoid subjectivity on the experiences and lessons learnt from the pilot project of pre-seeding done in Dharmapuri and Coimbatore Districts, for the seeding purpose, following two lists are generated as an output of cross-checking with NPR-Aadhaar database.

2.1 List A: - Aadhaar number collected during NERPAP is found in the databases NPR-Aadhaar of Tamil Nadu with at least name match. To account for all exceptions, this list is further sub-divided on matching attributes in the following way so as to facilitate a rational decision by the supervisor:

राजन अग्रवाल/RAJAN AGGARWAL  
अनुभाग अधिकारी/Section Officer  
भारत निर्वाचन आयोग  
Election Commission of India  
Ashoka Road, N. Delhi-110001

- To furnish their Aadhaar number
- To furnish the contact number (mobile / landline) of self or the family member
- To furnish the Email ID, if available
- Voluntarily disclose his / her multiple entries Using Form-7
- Apply for correction of Roll entries in Form-8, if any ,after verifying the details in the latest published Electoral roll
- Submit recently taken photo along with Form-8, if Photo updation is desired

### 1.2.2 Collected by the BLO through door to door visit obtaining information in the NERPAP FORMAT

- The BLO visits each house of the elector with the existing electoral roll details and collects the information needed like Aadhaar number, Contact mobile / landline number and Email id, if available.
- In addition to the above, the BLO also ascertains the correctness of the electors detail in the roll, by showing the actual entries in the Published electoral roll.
- The BLO collects the required forms i.e. Form -7 / Form 8 / Form 8A, from the elector or his representative , based on the requirement of the Elector and submits to the ERO along with his recommendations and related documentary proof documents submitted by the Elector.
